TRADEPACK®

MEDIUM

PART OF ISUZU'S READY-TO-WORK RANGE

FOR TRADIES WITH BIG PLANS

Whether you're a builder, plumber or landscaper, the Isuzu Tradepack will take your business to the next level. Its 5.2 litre Isuzu diesel engine and 4500mm x 2122mm tray can handle your jobs while its wide cab will support your growing team.

READY-TO-WORK

Buying a work truck shouldn't be hard work. Isuzu Tradepacks come pre-fitted with a polished bullbar, two-piece aluminium drop-side tray, ladder racks, tow-bar and more.

BIGGER LOADS

By the time you put three blokes in your average ute, take on a load of sand and a few bags of cement you'll be pushing most tray capacities. Isuzu Tradepacks are different. Their 4500kg GVM allows you to carry all your gear and tow up to 3500kg.

FIRST-CLASS CABIN

Step up into a Tradepack and you'll find integrated air-conditioning, sat-nav, a DAVE media system with MP3 and DVD. Plus, a driver suspension seat, electric windows and enough space for your whole team.

SPECIFICATIONS

- Isuzu specified 4500mm x 2122mm heavy-duty aluminium tray body
- Two-piece 303mm high drop-sides
- Three-piece ladder rack (rear racks are removable)
- Genuine Isuzu polished aluminium bullbar and genuine Isuzu 3500kg tow bar, incorporating 24v, 7 pin flat plug trailer wiring harness and chrome tow ball
- Isuzu super clean Euro V SITEC Series III 5.2 litre diesel engine
- Cornering lamps
- Driver suspension seat
- Satellite navigation
- DAVE media system
